

NADHIF ARARYA

STUDENTS

ABOUT ME

I am a passionate software engineer based in Indonesia, focused on engineering top-tier digital products that don't just work, but leave a lasting impression. I bridge the gap between technical complexity and premium visual aesthetics.

HARD SKILLS

Next.js	PHP
React	Python
Express.js	Supabase
Nest.js	Neon db
Laravel	Pocketbase

SOFT SKILLS

Responsible
Creative
Communicative
Adaptable
Critical Thinking
Team Works
Leadership

EXPERIENCE

Junior Developer | Frontend

2023-2026

SMK TARUNA BHAKTI

- Developed responsive and interactive web applications using React.js, Next.js, TypeScript, and Tailwind CSS.
- Collaborated with designers and backend developers to deliver user-friendly and high-performance interfaces.
- Built reusable UI components and optimized application performance to ensure a smooth user experience.
- Identified, debugged, and resolved frontend issues while following clean code and best development practices.

Internship | Fullstack

PT. Light Code Digital

2025

- Developed full-stack web applications using Next.js, TypeScript, and Laravel, delivering responsive user interfaces and scalable backend services.
- Designed and integrated RESTful APIs to enable seamless communication between frontend and backend systems.
- Built reusable frontend components and implemented backend features while following clean code and best development practices.

EDUCATION

SMK TARUNA BHAKTI | GRADUATED

Software Developer
2023 - 2026

CERTIFICATE

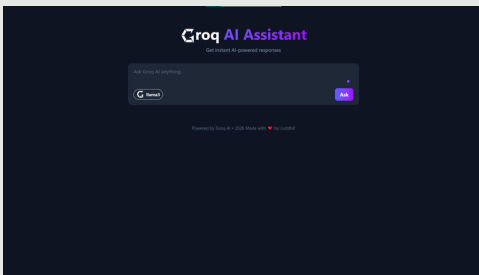

Best Tech Execution

Hacksphere 2025, President University

PROJECTS

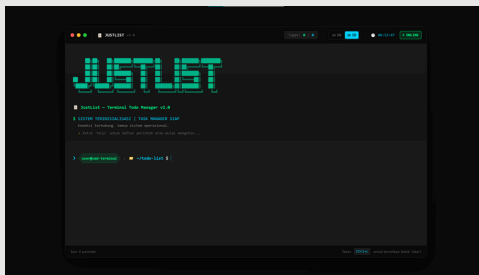

GROQ AI ASSISTANT

An elite generative AI playground that connects users to the lightning-fast Groq LLaMA 3 endpoint, showing real-time text completions, high-speed token updates, and prompt variations.

React js, Groq AI API

[See project](#)

JUSTLIST

A retro-inspired terminal todo manager with a full CMD-style interface. Features live task syncing via Supabase, command-based interaction, real-time session tracking, and a pixel-aesthetic dashboard that feels like hacking your tasks into existence.

React js

[See project](#)

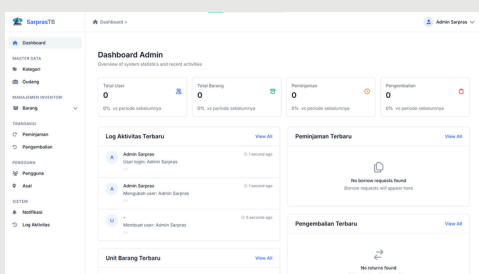

BOOKERA

A premium high-fidelity digital library ecosystem featuring live catalogs, real-time book availability tracking, digital borrowing records, and interactive reading statistics dashboards. This project is currently under active development with continuous feature enhancements and improvements.

Next js, Laravel, MySQL

[See project](#)

SISFO SARPRAS

A comprehensive school facilities and infrastructure lending service. Features an interactive admin dashboard, real-time activity logs, detailed statistics, and streamlined borrowing and returning workflows.

Laravel, MySQL
